SAVINGS
Recycling is not only good for the environment, it can be great for your bottom line too! By exchanging a trash bin with a recycle bin, your monthly bill may be significantly reduced. Let us show you how to better manage your waste stream and put money back in your business and not in your trash bin. For additional information, please call CR&R customer service at 800.755.8112.

GETTING STARTED
CR&R will work with your business to determine the types of materials you generate and structure a program using the space you have available in and around your office for collection.

TRAINING/ASSISTANCE
Once your business decides to implement a program, CR&R’s Recycling Coordinator will assist in the training of your employees. We’ll provide educational materials explaining the program in depth. One of the keys to a successful program is education, from the executive management to the janitorial staff.

CUSTOMIZED PROGRAMS
CR&R offers waste audits for businesses seeking to improve their current recycling and waste programs. A CR&R Recycling Coordinator will evaluate your waste stream from the inside out to achieve the most successful recycling program possible. To schedule an appointment for a waste audit, please call 800.755.8112.

BUSINESS RECYCLING: IT’S THE LAW!
Beginning July 1, 2012, Assembly Bill 341 [AB341] will require all businesses in California that generate 4 or more cubic yards of waste per week to recycle. Participating in a CR&R recycling program will assist your business in meeting the new recycling requirement. Businesses may also donate and/or self-haul materials to a recycling facility. Information about California’s business recycling requirements is available from the California Department of Resources Recycling and Recovery [CalRecycle] at calrecycle.ca.gov/climate/recycling.

RECYCLING BIN DIMENSIONS
- **2 YARD**
  - 4’h x 7’w x 2’d
- **3 YARD**
  - 4’h x 7’w x 4’d
- **4 YARD**
  - 5’h x 7’w x 5’6”d

CONTAINER DIMENSIONS
- **40 YARD**
  - 6’h x 8’w x 22’d

RECYCLE PROGRAMS

1. MIXED RECYCLING
   This program recycles materials such as: cardboard, mixed paper, plastic, aluminum and glass bottles. They may be mixed together and placed in a recycling bin.

2. SOURCE SEPARATED RECYCLING
   Your business may generate a large amount of one type of recyclable material, such as cardboard. CR&R can help you determine the best container for your needs based on the quantity and type of material.

3. CONSTRUCTION AND DEMOLITION
   With construction and demolition (C&D) debris making up a large percentage of all material entering California landfills, CR&R can help you to divert as much as possible through a combination of source separation and mixed processing. Prior to starting your project, contact CR&R to find out what options will work best for your site. Planning ahead will assist you in diverting as much material as possible, as cost effectively as possible.

4. LEED PROGRAM
   LEED, or Leadership in Energy and Environmental Design, is an internationally recognized green building certification system. CR&R is prepared to help you meet your construction based LEED goals. We are flexible enough to work with you on all building types—commercial as well as residential. To start your commercial recycling program, please contact our CR&R Customer Service Department at 800.755.8112.

OTHER SERVICES

BULKY ITEMS
   Items that cannot properly fit in your bin, such as a chair or desk, are considered bulky items and require a special pick up. Electronic waste [e-waste] is anything with a circuit board or battery, such as computers, telephones and copiers. White goods [e.g. refrigerators, freezers] and electronic waste cannot be disposed of in your bin. CR&R will collect and properly dispose of and recycle these items. For more information, please call CR&R’s customer service department at 800.755.8112.

HAZARDOUS WASTE
   Hazardous wastes are products that are flammable, corrosive, reactive or toxic. They are dangerous to the public and the environment. It is illegal to dispose of hazardous wastes in your CR&R containers.

Hazardous wastes must be disposed of properly. For further information about the disposal of hazardous waste, please visit Riverside County Waste Management Department at www.rivcowm.org.
